

## **Website Design Professionals In the San Francisco Bay Area**

toniCarr is an expert in website design, maintenance and redesign. Throughout our 10 year history we have developed search engine friendly websites tailored to individual business needs. We do not believe in cookie cutter style websites, each project begins with an exploratory process so that we can better understand your business and the competition.

### **Website Design, Re-design and Long Term Internet Goals**

With all the different options for building a website, we work hard to fit the right platform with the longterm goals for the site. This may include, blogging, eCommerce, forums or any number of the exciting applications that are available. From start to finish toniCarr makes sure that you understand exactly how your website works and the programming that will go into it.

### **Search Engine Marketing and Search Engine Optimization**

toniCarr is certified in Search Engine Optimization and continues to attend conferences and workshops to stay up on all the new avenues for internet marketing. Why have a website if you can't be found? We are a part of your business team and will guide you to choose the right content, keywords and social marketing for your site. Today it is not unusually to find many businesses paying for Search Engine Advertising for specific keywords due to the fierce competition. Our sites are developed with the search engines in mind and if you already have a website, we can help you tune it up so that it will reach your targeted customer. toniCarr is a unique shop based in California with personalized service to help businesses build a productive website. Working together to unleash new business opportunities through internet target marketing.

### **Social Media Integration**

Everyone is doing it and you should too. Engagement is the key to social media across all networks. If your business does not have a social media strategy you are missing a huge opportunity. Now you can integrate social media into your website. Let us help you build and maintain your social network.
